At Kimood, we have been designing and manufacturing bags and accessories for the communications market since 2010.

Our ranges include items for sports, travel and leisure. All our collections are dedicated to corporate communications, incentives or events.

For many years now, we have been prioritising the use of natural materials such as organic cotton and jute canvas.

Kimood is helping to build a circular economy through the preferential use of recycled fibres such as cotton and polyester. We pay particular attention to the certification of products with the most recognised labels such as OEKOTEX, GOTS (Global Organic Textile Standard), GRS (Global Recycled Standard) and OCS (Organic Content Standard). We also offer a wide selection of EVE VEGAN certified products.

At Kimood, we attach great importance to respecting the work of others. All our partner factories are BSCI and Sedex certified. At the same time, we regularly carry out audits to ensure that good working conditions are respected for factory workers. These audits are carried out by Kimood teams present on site.

We work to reduce our impact on the environment on a daily basis. In addition to the use of eco-friendly materials in our products, for several years, we have been redesigning our packaging by gradually eliminating individual packaging and using boxes made of 70% recycled cardboard.

At Kimood, it's all about letting the KI gently guide our Mood.

Ever in search of innovation and clean lines, most Kimood collections promote ethical and eco-friendly values. They reflect a commitment to sustainability and respect for people and the planet, with an irrepressible desire to continuously go a step further and adapt as closely as possible to developments in the market for competitive, high-quality products in step with the latest fashions.

K-Loop collection

By using recycled polyester from plastic bottles and cotton off-cuts from clothing production by the KARIBAN BRANDS family, the K-loop collection is closing the loop of the circular economy in the strict sense of the word. What's more, a cutting-edge traceability technology (Aware™ tracer) allows end users to track all the steps in the production of their bag, from start to finish.

Recycled Cotton collection

This ethical bag collection is developed from recycled cotton as part of a circular economy initiative. Much more eco-friendly than conventional cotton, recycled cotton helps combat textile waste.

Jacquard collection

KARIBAN BRANDS: A FORCE FOR CHANGE

Our environmental and social commitments are at the heart of our brands and aspirations. We always try to go one step further by emphasising the idea of eco-responsibility in our production process. We act in three particular ways: promoting the choice of sustainable materials, highlighting the value of expertise and optimising local supply networks.

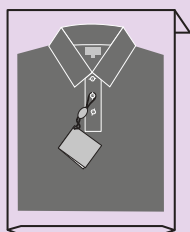

We are expanding our wardrobe with new styles made from natural and virtuous fibres, such as organic cotton certified by Ecocert Greenlife. This approach helps protect the environment and support the people who work hard to add that special something to our collections. At the same time, we are developing clothing made from recycled materials such as recycled cotton and recycled polyester. We are also reviewing our production methods in order to create sustainable alternatives and calmly plan for the future. Societal values and safety are our priority, and we closely monitor the production of the factories with which we work in order to guarantee compliance with the quality charter on which our collaboration is based. We also champion manufacturing workshops in European Union countries. The know-how of our selected European factories brings added value to our products in terms of both quality and human diversity.

COMMITMENTS AND POSITIVE CHANGES AT THE HEART OF THE ORGANISATION

We strive for improvement and excellence through the implementation of an assessment, progress plan, codes of conduct, labels and/or standards with certifications that recognise the efforts and commitment.

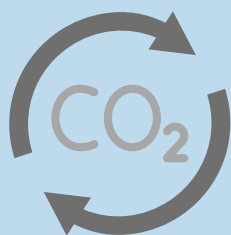

We have gradually implemented actions and tools that support sustainable development:

To combat problems linked to plastic pollution, we have significantly reduced the use of polybags and modified some of our packaging by moving towards recycled models.

We have implemented an audit that aims to guarantee improved control of energy consumption (gas, electricity, fuel), to preserve the planet's resources.

We are working to reduce our carbon footprint, reflecting the effort made in the fight against climate change. This ongoing process constitutes a powerful diagnostic tool for direct and indirect greenhouse gas (GHG) emissions generated by every sphere of the company's business.

We support eco-grazing as an alternative to mechanical mowing. This project was built on a partnership with the Eurocentre mixed association and the local company Tondobêle (an area of approximately 3 hectares).

On 26 January 2022, KARIBAN BRANDS and the Kariwala factory opened the «Happiness Park». This has created a colourful play park for children close to their school and the Kariwala factory. Kimood's Conscious collection is produced in this factory which respects both the planet and the women it employs. This action reflects a 10-year partnership with the factory which promotes equal opportunities, dignity at work and non-discriminatory wages.

We regularly educate, encourage and ask our employees for their input. All ideas for improvement are studied and considered. Above all, good practices require collective awareness and for everyone to do their bit.

ALL OUR EFFORTS ALLOW US TO MAKE A LONG-TERM COMMITMENT FOR A POSITIVE IMPACT ON THE ENVIRONMENT.

MADE IN EUROPE COLLECTION

SPOTLIGHT ON EUROPEAN KNOW-HOW

The Made in Europe collection is crafted with top know-how, using local supply networks. We are dedicated to promoting European textiles and thus showcasing manual crafts. The know-how of the selected factories brings added value to our products in terms of both quality and human diversity. The techniques used, the expertise at every step in the manufacturing process and the artisan touch are a huge plus and a sign of quality. We carefully select our raw materials and pay particular attention to our production and distribution channels. The European factories are selected based on their skills, specialisms and the products we wish to develop with the aim of bringing you the best. Discover a wide range of garments as well as linens and even espadrilles! It's early days but this eclectic, easy-to-decorate collection of on-trend products and gift ideas is already a huge success!

MADE IN EUROPE

THE PRODUCTS IN THE MADE IN EUROPE COLLECTIONS ARE MADE IN VARIOUS COUNTRIES WITHIN THE EUROPEAN UNION, SUCH AS FRANCE, ITALY OR SPAIN. PRIORITISING PRODUCTION WITHIN THE EUROPEAN UNION MEANS SHORT SUPPLY CHAINS WHICH ALSO REDUCES THE ENVIRONMENTAL IMPACT AND PROMOTES THE LOCAL ECONOMY. KARIBAN, PROACT® AND KIMOOD ARE THE 3 BRANDS WITHIN KARIBAN BRANDS WHICH OFFER PRODUCTS IN THE MADE IN EUROPE COLLECTION.

VINTAGE COLLECTION

AN OLD SCHOOL FEEL

In a context in which bringing back the past is important, we give comfort, appearance and durability pride of place in our creations. **Inspired by the 90s, the vintage collection is casual and timeless.** It revolves around sleek, quality pieces that are very comfortable to wear. For easy decoration access, the collection is **completely No Label** with just a size tag and a branded insert on the neck. This gives you the option of whether to decorate your garments. The hip world of our vintage collection is a real winner. Its plain and marled colours have been carefully chosen and are deliberately aged using special treatments to make each piece unique and original. Our cuts vary from ultra-comfortable to minimalist in order to adapt to today's modern lines. **Our finishes are neat and our materials soft and enveloping:** peach-skin feel, sherpa lining, cotton, etc. Comfort is at the heart of our collection, and we have done everything possible to ensure that the nostalgia it will make you feel never takes precedence over style. This nod to the 90s and the originality of our collection cannot help but make any wardrobe more appealing.

LOUNGE COLLECTION

AN ODE TO COMFORT

Softness and comfort are the very essence of the Lounge collection's hygge world. It offers light, fluid pieces in soft or organic cotton fabrics with OCS Blended certification, a regular fit and soft colours. Versatile and perfect for everyday wear, the lounge collection comprises several ranges, including underwear, sport and casual. It boasts cosy, fluid and light pieces to make you feel good wherever and whenever you wear them. We've set our hearts on **French Terry** (unbrushed fleece). This gorgeous sweatshirt fabric is stretchy and comfortable, making it very pleasant to wear. It's ideal for spring, summer and autumn because it's thinner than the fabric used to make regular fleece sweatshirts. Perfect for sports or relaxing, it is this collection's hero fabric. Its outer layer in 100% ultra-smooth and soft cotton offers an **ideal surface for decoration and very high print quality.** Most of our items are No Label for easy decoration. Enter a world of hygge and understated cool elegance.

KI5808 TOTE BAG IN RECYCLED "K-LOOP PROJECT" COTTON

285 g/m² • 73% cotton/25% polyester/2% other fibers. Shopping bag in 73% recycled cotton and 25% recycled polyester. This bag is part of the "K-loop" project. With this project, Kimood is closing the circular economy loop in the strict sense of the word. The cotton used comes from waste generated in the production of cotton t-shirts for the Kariban brand, from the KARIBANBRANDS family. The added polyester comes from recycled plastic bottles. During the recycling process, we add tracers to the thread, i.e. electronic chips containing a blockchain (storage and information transmission technology) which stores all the operations carried out on the thread. With the AWARE tracer technology, Kimood thus allows the end consumer to monitor the entire production process with the guarantee of a product recycled according to best practice, with no possible modifications during the process. With "K-loop", Kimood is closing the circular economy loop.
